DETAILED ACTION

Allowable Subject Matter

1. Claims 1-20 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art of record fails teach defining a plurality of virtual logic networks wherein each virtual logic network is formed of mobile units based on a predetermined membership condition associated with the virtual logic network. In addition the prior art of record fails to teach automatically selecting an appropriate virtual logic network according to a monitored event when the event takes place.

The closest prior art of record Nitadori cited in the previous office action disclosed a physical network that used virtual network addresses. The in-vehicle units manually selected users from other networks for communication based on a directory service. The prior art failed to teach where the virtual network or networks were created based on a predetermined membership condition and automatically selected to communicate based on an event as described by the present Applicant.

Therefore, claims 1-20 are submitted as allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
